Sagittarius Horoscope

It’s time to get your house in order, Sagittarius, because as serious Saturn travels through soulful, reflective Pisces and your fourth house this year, the focus shifts to your home life and family issues. Because this serious energy affects your domestic duties and obligations as well as all things related to your house, you might find yourself with a pretty hefty to-do list in 2024! Things ranging from taking care of elderly or sick relatives to major DIY or renovation projects could dominate your free time, but your increased sense of empathy, compassion, and patience helps you deal with this potentially stressful workload.

Once There Was a Snowman

Once there was a snowman,
Who stood outside the door,
He wished that he could come inside,
And run about the floor.
He wished that he could warm himself,
Beside the fire, so red,
He wished that he could climb
Upon the big white bed.

So he called to the North Wind,
"Come and help me, pray,
For I'm completely frozen,
Standing here all day."
So the North Wind came along,
And blew him in the door,
And now there nothing left,
But a puddle on the floor!
