*Virgo Horoscope*

No pressure, Virgo, but all eyes are on you in 2025! This is a year of soulful evolution that allows you to align with your power as the planets propel you forward.

The most impactful cosmic moment for you happens in January when the nodes of destiny enter the Pisces-Virgo axis, initiating a total transformation. The north node in Pisces in your 7th house of love emphasizes relationships, while the south node in Virgo in your 1st house of self encourages healing wounds related to identity. Eclipses in March and September could bring major changes like relocations, new careers, soulmate connections and even proposals or promises!
